

OCULAR AMNIOTIC MEMBRANE ALLOGRAFT

PROTECTIVE COVERING TO
AID IN OCULAR REPAIR

WHY AMNIOTIC MEMBRANE?

Human amniotic membrane forms the innermost layer of placental tissue. The thin and avascular membrane acts as a protective barrier for the developing fetus. Its properties provide a wide variety of potential benefits.

PROTECTIVE COVERING

The membrane sheet provides a protective covering that aids in ocular repair and reconstructive procedures

IMMUNOGENICITY

The amniotic membrane has unique immunological properties¹

SCAFFOLD

The extracellular matrix acts as a scaffolding and may potentiate the migration and adhesion of resident cells²

GROWTH FACTORS

The membrane is a natural source of cytokines and growth factors³

WHY SURSIGHT®?

Lightweight and flexible, providing a protective covering to aid in ocular repair.

SurSight® is specifically designed to be smooth and clear for ophthalmic applications. SurSight® is minimally manipulated to retain the natural properties of the amniotic membrane, and provides clinicians with a flexible sheet that can be used in a variety of applications with ease. SurSight® exceeds expectations due to our high quality production standards.

- Rigorous quality and serological testing that exceeds FDA requirements
- Single layer of amnion to provide a smooth and transparent finish
- Multiple sizes tailored to accommodate various clinical uses

Product Information

Learn more about SurSight[®]

SurSight[®] is regulated under Section 361 of the Public Health Service Act and is intended for homologous use.

What is SurSight[®]?

SurSight[®] is a dehydrated, minimally manipulated, amniotic membrane allograft for homologous use. It is terminally sterilized and provided ready for use in ocular repair and reconstruction procedures.

Surgenex[®] Quality

SurSight[®] is processed in compliance with current Good Tissue Practices (cGTP) as mandated by the United States Food and Drug Administration and the standards of the American Association of Tissue Banks. We take pride in ensuring quality standards and testing that exceed the industry standards.

Allograft Sizes

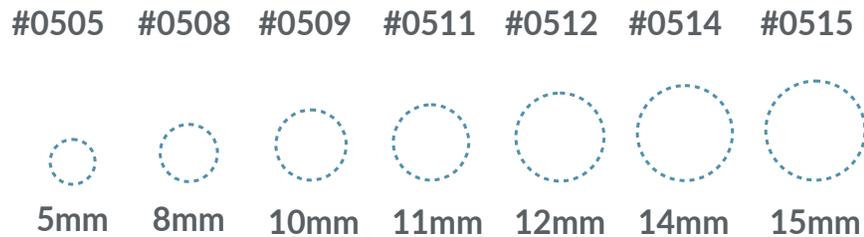

SurSight[®] comes in a variety of circular allograft sizes tailored for ease of use

Optimized For Comfort

Since amniotic membrane can be used in a wide variety of applications, we offer sizes specifically designed to meet the needs of our providers.
